Approval to Proceed/ Hold Point Release

Field Sheet

COLAS
WE OPEN THE WAY

Client:		Date:	
Project Title:		Job Number:	
Suburb:			
☐Supply & Lay ☐ Profile & Fill ☐Key & Overlay ☐Profile & Patch ☐ Repair Works ☐OTHER		☐Base ☐ Intermediate ☐ Wearing ☐Correction ☐ OTHER	
Product:		Nominated Layer Thickness:	

Approval granted to proceed with the above process and verification of the following aspects of the process meet the requirements of the contract specification and the quality plan (when required):

☐ **Plant and Equipment** ☐ **Materials/ Mix Design Details**	☐ Risk Assessments ☐ Service History ☐ Registration (7 working days before commencement of works)
☐ **Preparation of Existing Surface** ☐ **Unsuitable base conditions** ☐ **Layer thickness does not comply with spec tolerances** ☐ **Wind speed exceeds required tolerances** ☐ **Underlying layers conform to specification** ☐ **Existing pavement temperature below spec tolerances**	☐Swept & free if any loose material ☐ Tack coat applied ☐ Soft Base ☐ Damage to Seal ☐ Wet surface ☐ Nominated ☐ Surveyed

Comments/ Site Conditions:

Note: Approval to proceed/ Hold point release required for each working shift
Approval to proceed is valid only if weather and pavement conditions comply with specification.

Signed and acknowledged by:
